Messrs. Mortimer & Mowbray:
It is a duty I owe to myself and the public to speak
in commendation of Hampton's Tincture. For five
years I was afflicted with inflammatory Rheumam in its severest form, unable to do any work o

tism in its severest form, unable to do any work or rest day or night,
Having heard of your valuable medicine I sent for one bottle; after the using of which I found prompt relief and on using three bottles more I was surprised to find myself cured. I do take great pleasure in recommending Hampton's Tincture to the afflicted as a certain and permanent remedy.

The following intelligence has been received in a letter from Capt. Biethen, of the Transit Company's steamship Sierra Nevada, addressed to Charles Morgan, Esq,

"Capt. Walker was beaten out of the Reibas, with the loss of twenty men. The natives who had joined him all deserted. He was hotly pursued by Gen. Bascker. He threw off his coat, containing all his documents and private letters. In their flight the invaders passed through San Juan del Sud on the night of the first of July, seized a schooner in the harbor and sailed for parts unknown. They left the barracks at this place a smouldering mass of ruins. They took the passengers' boats to embark in but returned them, and did no injury to the property of the Transit Company."

The report that Mr. French has received grants of land from the Government of Nicaraugua must be a mistake, as the only grant made was that of Mr. Walker through a third party. Walker is doubtless, there by this time with his little force, and Mr. French is probably going on to join him. It is said that fifty men have enlisted in various parts of the State to join the enterprise; and to tl is 63 of Walker, and we have 113 eager expeditionists determined to restore liberty and order to that very warm part of the continent. We can guarantee plenty of aguandiente, fruit, jiggers, fevers, rain, treachery, & amull glory; but what else the reformers will obtain, we must estimate from the history of the English and Prussian attempts to colonize the coast lands of Nicaragua, during the

last half century. Americans and Europeans cannot live and work in Central America, excepting in the table lands and cool mountain districts of appointment, enervation, and disgust awaits the application of the properties of the design the settler. We have often repeated that the Anglo Saxon and Spanish American races can never affiliate. Sooner or later they must come to blows. The one despisions and attempting to domineer, and the other fearing the progress and hating the superiority of the new comers. Besides the Central Americans will not be "filibustered" concurred the six of the contract of th appointment, enervation, and disgust awaits the settler. It pleases his bacchine excellency of the Newark Times to use the terms "remarkably dirty puppy"-and "poor fool"-in connection with us. In fact, because we merely made mention of his defection, he spews out his bile towards us, in the most disgusting marner. From his vivolent style we judge that he has still another reason for opposing the Republican ticket. It looks too temperate to suit Michael. It would be a pity to cut off his rations of grog, but then it might improve his style, and render it more suitable for decent society.

Thank God, we were never "foci" enough to "put an enemy into our mouth to steal away our brains."

and all Diseases of the Sexual

Organs, Whether in Male or Female, from whatever cause they may have originated and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undermining the constitution and sapping the very vitial fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods too well calculated to deceive the young and those not acquainted with their tricks.—You cannot be too careful in the selection of a remedy in these cases.

in these cases.

The Fluid Extract Brow has been pronounced by eminent physicians the Greatest Remeny even Known. It is a medicine perfectly pleasant in its laste and very innocent in its action, and yet so therough that it annihilates every particle of the tank and poisonous virtue of this dreadful disease; and, unlike other remedics, it does not dry upthe disease in blood. Constitutional Debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a nobleyouth, can be cured by this Infallible Remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, acting both as a Cure and Preventive.

Helmbold's Highly Concentrated Compound Fluid Extract

This article is now prescribed by some of the most

the Face, and all Scaly Ecuptions of the Skin. Thir article is now prescribed by some of the most distinguished Physicians in the country, and has proved more efficient in practice than any preparation of Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrottlous diseases have entirely recovered in the incureble wards of our Public Institutions which had for many years rowisted every mode of treatment that could be devised. These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate discasses, after the glands were destroyed and the bones already affected.
